Mr. Kenneth J. Cox, Environmental Engineer
EPA Region III; Waste & Chemicals Management Div.
1650 Arch Street 3WC 31
Philadelphia, PA 19103-2029

Dear Mr. Cox

Enclosed is the photo I took yesterday, after applying an "Accumulation Drum (HazWaste) Label" to the reception drum for the crushed aerosol cans. It will be our practice to transfer the contents of this drum to a larger drum for Manifested shipment, hence the drum you see here, with the tooling setup, will have an ongoing presence in the Maintenance Department. Ken, I appreciated your call of last Friday (I work at home as well as within the plant), and if anything else comes to mind, please advise at your earliest convenience.

Best Regards,

Joel E. Spade
